

JCNS Workshop

# Modern Trends in Production and Applications of Polarized $^3\text{He}$

11 - 13 July 2010, Munich-Ismaning

## Topics :

- Polarization of  $^3\text{He}$  (SEOP, MEOP)
- $^3\text{He}$  containers
- Magnetic holding systems
- $^3\text{He}$  spin manipulations
- Applications in neutron scattering, medicine and high energy physics

[www.jcns.info/Workshop\\_3He](http://www.jcns.info/Workshop_3He)

Deadline for submission of abstracts  
and final registration: 28 May 2010

Workshop Fee: 290 EUR

Includes full lodging and board at Commundo  
Conference Hotel Ismaning, workshop diner and  
excursion to FRM II in Munich-Garching

Organizers:  
T. Brückel, A. Ioffe, E. Babcock.  
T. Gutberlet, F. Michel
